**Subject:** Re: Tamisolve NxG

John,

Requests for modifications to COs don't follow the same review process as a PMN submission. Rather, we make sequential requests of the Risk Assessment Division for a new (or revised) engineering report, then a new exposure assessment of ecological/gen pop/consumer exposure, and then a revised risk assessment.

Rose Allison has made the request (for Jeff Bauer) for these new assessments. We are awaiting the new engineering report.

Hi, Greg.

On June 14<sup>th</sup>, we submitted the request to amend our Consent Order.

We haven't heard anything since then.

Would you please tell us where it is in the process (e.g. did it go to FOCUS)?

Best regards,  
John
